Technical Information

1. Selectivity / Current Discrimination

□ Ensures Continuity of Service for the rest of the Network

□ Total Discrimination

For all fault current values from Overload up to the Short circuit, the Downstream C.B will open, while the Upstream C.B will remain closed.

In case of selectivity

2. Cascading

The use of the Current Limiting Capacity of Circuit Breakers at a given point to permit installation of Lower Rated Breaking Capacities and therefore Lower-Cost circuit breakers downstream.

□ Cascading Advantages :

- * Reduce C.B cost
- * Reduce Mechanical effects
(Less Risk of Bus bars & Contacts Deformation)
- * Reduce Thermal effects (Longer Cables Service Life)
- * Reduce Electromagnetic effects (Disturbances on Measuring Devices)

Cascading = Reduction of the installation cost

ARE YOU FUTURE READY?

Masterpact MTZ
circuit breakers

Masterpact™ MTZ
FUTURE READY

...PRECISION READY

Access new energy-saving capabilities —
A built-in Class 1 power meter gives you precise
power measurements for greater efficiency.

- First air circuit breaker with built-in, third-party certified Class 1 active power meter (IEC 61557-12)
- Instant and comprehensive views of your building's power consumption
- View energy usage analysis, trends, and energy costs allocation
- Compliant with international regulations: ISO 50001 and IEC 60364-8

Class 1 accuracy for active power and energy management.

...**UPGRADE** **READY**

Customize Micrologic X control unit anytime —
Digital modules make it easy to upgrade and tailor
your system.

- Download digital modules for system protection, measurement, diagnostics, and maintenance
- Enhance energy management, power quality management, and crisis management
- Update at any stage of the life cycle: during configuration, commissioning, or operation
- Modules available 24/7 on the Schneider Electric GoDigital web store
- Upload modules instantly using a single USB cable without interrupting power

Optional digital modules to customize Micrologic 24/7.

...INSTALLATION **READY**

Streamline configuration and commissioning.

Retrofit seamlessly

Updating from Masterpact NT/NW breakers is easy.

Masterpact MTZ circuit breakers have the same power connection, breaking capacity, thermal properties, and footprint.

Configure quickly

Designing your Masterpact MTZ breaker to fit your needs is simple.

MyPact software makes configuration and ordering quick and easy.

Commission easily

Get your Masterpact MTZ breaker up and running in no time.

With Ecoreach software, commissioning and maintaining your circuit breaker is seamless and intuitive.

Installation and updates are seamless, quick, and easy.

...**INTEGRATION** **READY**

Simplify your switchboard design — Masterpact MTZ circuit breakers are adaptable to different systems.

- EcoStruxure Power's open and interoperable system architecture allows for seamless integration with Schneider Electric's Smart Panels solution
- Monitor and control remotely using any supervision system
- Embedded Ethernet connection (EIFE module) with chassis status management and embedded web pages
- Breaker data displays locally on switchboard and remotely on supervision systems
- Fully customizable Micrologic X control units for all types of protection

EcoStruxure Power monitoring software

- Facility Expert
- Facility Advisor
- Power Monitoring Expert
- Power SCADA Operation
- Building Operation

Ecoreach software

- Simplify commissioning and maintenance
- Set up and test switchboards equipped with smart devices
- Install digital modules
- Reduce commissioning time
- Speed up FAT and SAT delivery
- Improve preventive maintenance with protection settings/checking, warnings and alarms, trip history, and maintenance reports

Masterpact MTZ integration with Smart Panels architecture generates valuable data, enabling:

- Connection to EcoStruxure Power software unlocks your electrical system's potential
- Remote monitoring and control with any supervision system to carry out predictive and preventive maintenance
- Remote notification and maintenance planning with Facility Expert digital maintenance logbook
- Proactive facility management with EcoStruxure Facility Advisor, Power Monitoring Expert, Power SCADA Operation, and Building Operation software
- Asset life-cycle management and condition-based maintenance via equipment monitoring
- Asset and alarm management
- Energy efficiency and power quality management
- Compliance with latest regulations for energy-efficient buildings

Smart Panels integration

With the Masterpact MTZ circuit breaker, every stage of the project — from designing and configuring to operating and maintaining — is streamlined using its digital capabilities.

DESIGN

Ecodial Software

Single-line diagram design software that calculates and sizes your electrical installation.

Ecoreal software

Quick configuration and quotation tool for switchboards.

CONFIGURE AND ORDER

MyPact

Configure and order Masterpact MTZ to save time and ensure accuracy.

config.schneider-electric.com

BUILD AND COMMISSION

Ecoreach

Commission and upgrade easily with protection setting and factory-acceptance test.

OPERATE AND MAINTAIN

A. Remotely in the control room

PowerView™ software and embedded web pages. Obtain data visualization and reporting for increased efficiency.

B. Locally in the facility room

Masterpact MTZ app

Status "at a glance"

C. Stay notified any time

The Facility Expert maintenance logbook app. Track facility data and receive alerts in case of power events and scheduled maintenance.

Mechanical interlocking for Source changeover

Interlocking of 3 devices using cables(*)	Reference	Price
Choose 3 adaptation Fixtures (1 complete set with 3 adaptation fixtures) + cables		
3 sources, only 1 device closed, fixed or drawout devices (**)	48610	42,304.00
2 sources + 1 coupling, fixed or drawout devices (**)	48609	42,304.00
2 normal + 1 replacement, fixed or drawout devices (**)	48608	39,552.00

Notes:

- 1 - External Neutral sensor (TCE) are not included in the breakers with ETV6G, it must be ordered separately.
- 2 - All the breakers are manual operating (not including MCH+MX+XF)
- 3 - All accessories are same as Masterpact NW
- 4 - Can be used with any combination of NT or NW fixed or Drawout devices
- 5 - Breakers are not included

When you're ready at every level, you're future ready.

The new Masterpact MTZ circuit breaker provides innovative protection for every level of your building's electrical system, so you're already connected to tomorrow's technology, today:

-  Smartphone **connectivity** for wireless monitoring, maintenance, and event alerts
-  Ultra-precise Class 1 **power metering** for energy efficiency
-  Easy **customization** via downloadable digital modules
-  Seamless **installation** and integration with your previous system

Masterpact™ MTZ

Acti 9 Distribution boards

Technical data

Distribution board

Main busbar rating	125 A / 250 A
Number of outgoing ways	54 ,48 ,42 ,36 ,24 ,18
Incomer provision	125 A, Isolator, RCCB, MCB
	250 A MCCB
Outgoer provision	MCB or RCBO
Outgoing rating	63 A max
Rated short time withstand current (I _{cw})	125 A: 17 kA, 250 msec. / 250 A: 25 kA, 300 msec.
Rated peak withstand current (I _{pk})	125 A: 34 kA / 250 A: 52.5 kA
Operating voltage	230 V / 415 V
Rated impulse voltage (U _{imp})	6 kV
Insulation voltage (U _i)	500 V
Operating temperature	5- °C to 50+ °C
Index protection	IP41
Compliance standard	IEC 3-61439
Color	White RAL 9003
Enclosure material	Powder coated sheet steel
Gland plate for cable glanding	Top and bottom
